MARCH 2000

ACBAR is pleased to make available the Database of NGO activities for 1999-the twelfth edition. This edition, as usual, contains information on NGO activities inside Afghanistan and for Afghan Refugees in Pakistan.

There are some 5766 projects listed as being undertaken by 180 NGOs in this edition. It should be noted that the information in the Database is as reported by the NGOs. These agencies are mostly Peshawar based; however, information has been collected from NGOs based in Afghanistan as well as those based in Islamabad and Quetta.

For easy access to the information available in the Database, it has been published in four separate volumes:

- ⇒ Volume I: Location-Province/District;
- ⇒ Volume II: Sector;
- ⇒ Volume III: Agency;
- ⇒ Summary of Database

ACBAR would also be pleased to provide you with specific print-outs according to the other sectoral and zonal requirements.

I would like to thank all those involved in the production of these publications, the NGOs for providing the information, ACBAR Data section for putting the information together, ACBAR Programme Department for Data collection and ACBAR Printing Press. I hope the information will be useful to all those involved/interested in the aid process for Afghans and Afghanistan.

Nancy Hatch Dupree
ACBAR Executive Director
March 2000

INDEX

Part I : NGO Activities - by Geographical Location for Afghanistan

INDEX
